In 2015, Year 7 public school students will move to secondary school. The move will provide your child with the same opportunities as children across Western Australia, giving them access to specialist teaching and facilities needed for the Australian Curriculum.

As a Year 7 student in a secondary school your child will be introduced to new and more demanding mathematical concepts including formal algebra and geometry, and will study biological and physical sciences including mixing chemicals using specialised equipment. They will also have access to a diverse range of learning experiences such as computer science, robotics, food science, woodwork and metalwork.

The move will provide exciting new opportunities for your child. We are looking forward to having them join our Rossmoyne Senior High School community, and our staff are working hard to prepare them for the transition.

We are holding a number of school tours during terms 3 and 4 for interested parents of current Year 5, 6 and 7 students. You are welcome to book into one of the tours to see our school in action. Details can be found on our website: www.rossmoyne.wa.edu.au. Please note that bookings via email or phone (08) 9259 2100 are essential.

If you have any questions I encourage you to visit the Department’s parent website at www.det.wa.edu.au/schoolsandyou or make a time to meet with me or one of my leadership team.

Peter Klifunis
Principal
Rossmoyne Senior High School
